Potential Funding Options

Charges Estimate

You may be eligible for funding under one or more invoicing agreements.

If you would like to seek funding approval under one of these agreements, please make the appropriate selection below. Note: the invoicing agreements will pre-populate key data elements in your transaction including currency, billing address and VAT information, if applicable, facilitating compliance with an existing agreement between your publisher and funding organization.

After you complete your open access transaction, you will be notified on the Order Confirmation screen when there are other applicable charges (such as page or color) that are offered by your publisher but not covered under your chosen agreement. A payment link will be provided so that you may review these other charges and complete a separate transaction.

If you don't wish to pay your open access charges using an existing agreement, please choose **Bill Me**.

3. Information for your authors

You will be identified in RightsLink as a member of an institution by your Ringgold ID or AuthorEmailDomains. RightsLink checks whether your institution has a Funding Agreement for Thieme, which enables you to submit OA free of charge or at a discount.

You will see the costs in advance via the mandatory link “Estimate Open Access Fees”.

* Publishing Preference

This journal offers the option to publish your paper Open Access. Please be aware that this incurs publication charges, which are due upon acceptance of the manuscript. If your institution has a publication agreement with the publisher, you may be eligible for a free or discounted publication charge. To check your eligibility - which is typically associated with the corresponding author's affiliation as entered in 'Step 4: Authors & Institutions' during the submission process - and to get an estimate of the applicable publication charges, please click 'Estimate Open Access Fees' and follow the instructions.

Further information is available at <http://open.thieme.com/de/web/19/funder>. Should you require assistance, please contact OA-support@thieme.com.

After reviewing the cost estimate for Open Access, please make your choice of the desired publication model ('Non Open Access' vs. 'Open Access').

Please be aware that Open Access publications are processed for publication only after the Article Processing Charge (APC) has been paid.
