

Homeopathy Rate Card

Homeopathy – the Journal of the Faculty of Homeopathy.

A valuable resource for those in conventional as well as complementary and integrative medicine, Homeopathy publishes peer-reviewed articles that will appeal to a multi-disciplinary audience.

Homeopathy is an international peer-reviewed journal aimed at improving the fundamental understanding and clinical practice of homeopathy by publishing relevant high-quality original research articles, reviews, and case reports. It also promotes commentary and debate on matters of topical interest in homeopathy.

Now published by Thieme!

AORTA

Dear Colleagues,

We are delighted to introduce **AORTA** now published by Thieme Publishers.

AORTA aims to showcase more intensive treatment of aortic disease than is possible in current journals with broader scope. This journal is devoted to diseases of the aorta, both thoracic and abdominal. Both occlusive and aneurysm disease will be covered. The journal focuses directly on the aorta and its first-order branches (innominate, carotid, subclavian, celiac axis, superior mesenteric artery, renal arteries, and iliac arteries).

No other journal has this direct focus on the aorta. It is anticipated that articles will be included on imaging of aortic diseases, natural history of aortic diseases, surgical treatment of aortic diseases, percutaneous (non-invasive) treatment of aortic diseases, new operations for these diseases, and new medical/surgical products and technologies for the care of patients with aortic disease.

Target Audience:
Cardiothoracic surgeons, vascular surgeons, cardiologists, vascular radiologists, interventional radiologists, cardiovascular anesthesiologists, engineers, and basic science researchers in vascular medicine.

Many thanks for your interest and support. We look forward to receiving your submissions which will contribute to the success of the journal!

On behalf of the Editorial Board,

Sincerely,
John A. Estelradis
Editor
